

2025 COMPANY PROFILE

REIMAGINING DIGITAL
FINANCIAL TECHNOLOGY

TPS is a leading financial technology provider, driving digital transformation across banks, fintechs, telecoms, financial & non-financial institutions and government regulatory. With over 28 years of experience, TPS delivers secure, scalable, and compliant digital banking and payment platforms that support mission-critical services in more than 30 countries.

Our platforms empower institutions to accelerate innovation, expand outreach, and deliver modern customer experiences from core banking and payments to wallet ecosystems and open finance infrastructure.
